(a) whether it is a fact that currently the power to govern the internet rests with the Internet Corporation for Assigned Names and Numbers (ICANN), based in California;

(b) whether Government are contemplating to wrest control of internet on expiry of MoU in September, 2006 between ICANN and the Department of Commerce of the USA; and

(c) if so, the details in this regard?

THE MINISTER OF STATE IN THE MINISTRY OF COMMUNICATIONS AND INFORMATION TECHNOLOGY (DR. SHAKEEL AHMAD): (a) ICANN is an internationally organized, non-profit corporation that has responsibility for Internet Protocol (IP) address space allocation, protocol identifier assignment, generic (gTLD) and country code (ccTLD) Top-Level Domain name system management, and root server system management functions. As a public-private partnership, ICANN is dedicated to preserving the operational stability and security of the internet.

(b) and (c) No Sir, Government after consultation with all stakeholders have declared that Governments and all stakeholders should have effective say in all deliberations on internet policy. These should be transparent, inclusive and democratic.
